**ZigZag**  
Sliding Folding Wall

## 02\_ZigZag

ZigZag is the ideal room-dividing option where there are structural constraints.

With a ZigZag sliding-folding wall all the weight is taken on the floor hence avoiding potentially disruptive and expensive structural interventions. All ZigZag sliding-folding walls incorporate an integral pass door.

## 05\_Technical Information

A choice of four folding configurations mean almost any space planning demands can be accommodated with a ZigZag sliding-folding wall, utilising side-opening or centre-opening panels to one or both sides of the opening.

Standard finishes are from the Egger 'Zoom' range or designer finishes such as laminates, drywipe panels and book-matched veneers can be specified.

\* Anything over 3750mm must be TP. Contact Creatif for special requirements.
