02_Perspective

Perspective Sliding Folding Glass walls acknowledge previous design challenges and create new options for recon igrable division.

This highly prestigious and aesthetic system enhances any interior with its elegant profiles, concealed hinges and discreet aluminium frame.

Available either top-hung system (for situations where there is sufficient primary support) or floor-guided (for situations where there is inadequate primary support), and also available as a fully-automated version with panels operating electronically without any human intervention needed.

05_Floor-Guided

Perspective floor-guided panels are supported by the floor as opposed to the head. This means its perfectly suited for situations where there is no primary soffit at the head to take the load.

Floor Profile

Floor Track

06_Floor-Guided

Perspective is quick and easy to operate, enabling space to be opened and closed quickly. Its incredible 43dB acoustic integrity rating ensures privacy, but without losing space flexibility.

| | Perspective - Floor-Guided |
|--------------------|----------------------------|
| Panel Construction | MFC / MDF / Glazed |
| Connections | Aluminum Profiles |
| Operations | Manual |
| Acoustic Rating | 42-43 dB (RW) |
| Thickness | 70mm |
| Weight | 25-42 KG / m ² |
| Max Panel Height | 4,000mm |
| Max Panel Width | 540-900mm |
| Max Opening Width | Adjustable (mm) |

07_Top-Hung

Our Perspective Top-Hung system has been developed in response to customers looking for an alternative to our floor-guided version but without the floor track.

The weight is now supported by the head track, which means no floor track is present.

08_Top-Hung

Perspective top-hung panels are available as either hinged (in the same way, and with the same stacking options, as the floor-guided system) or as individually operated panels in the same way as a typical operable wall. Increased panel stacking and room reconfiguration options are made possible with the individual panel system.

Stacking options for both types of top-hung system are depicted on the following pages.

| | Perspective - Top Hung |
|--------------------|---------------------------|
| Panel Construction | Aluminium |
| Connections | Aluminium Profiles |
| Operations | Manual |
| Acoustic Rating | 42 - 43 dB (RW) |
| Thickness | 70mm |
| Weight | 28-31 KG / m ² |
| Max Panel Height | 4000mm |
| Max Panel Width | 450 - 900mm |
| Max Opening Width | Adjustable (mm) |
